CLAPIT – IMS Foundation Course Outline

Course Title: CLAPIT – IMS Foundation Course Outline

Delivery Mode: Classroom

Duration:

180 hours Technical training and 180 Hours Soft Skills training

Course Description

CLAPIT IMS Foundation is a program intended to impart Foundation level skills required for IT Infrastructure Management Services. This program will enable the participants to learn about IT Infrastructure components from a service oriented approach. At the end of the program the participants are expected to be ready for providing L1 support for these Infrastructure Management Services. This program is targeted for Under-graduates (Diploma holder), Graduates, and Masters with no prior work experience.

Audience

College pass outs. BE, B.Tech and any degree who wants to get into the L1 Support of Infrastructure management services area.

Learning Objectives

At the end of the program the participant will be able

- To perform Level 1 support in Infrastructure Management Services, equipped with necessary skills and knowledge.
- To understand and work with respect to the “Services Rendered” and the “Components” that support the Services.
- To understand and play his/her “Role” in the entire Ecosystem of IT-Infrastructure Management.

Why Training from EBITA?

Case Study & Group discussions Based learning

- We believe in ‘**experiential learning**’ and we enable this through a **case-study approach**. All the concepts of ITIL Foundation will be through a case-study which will depict a **near-real time scenario**.
- Participants will be encouraged to take active part through **group-discussions** - the classroom will be split into groups and each group will have to address a part of case study.
- Participants will be able to **relate concepts** to their working world, also help them to go back and attempt **application of concepts**

Course Material

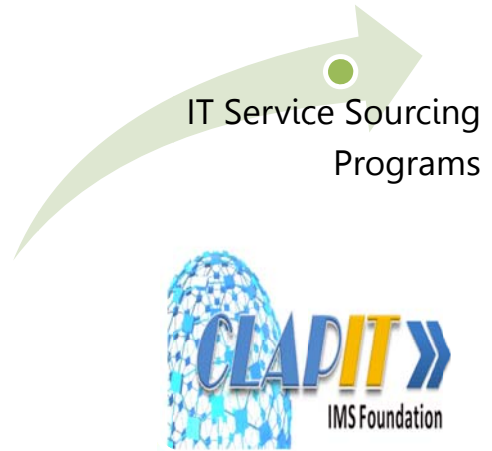

It's been our endeavour to bring **the best-of-the-class** training programs of which **course material** is critical component. The course material is result of **in-depth, innovative and tested design philosophy**. Carefully designed and created by experts from various levels.
